Li River Sunrise

For many years, Li River has been viewed as an iconic symbol of oriental beauty. It is one of those a few places of China that is so popular by attracting lots of tourists every year but still remains its natural purity. I have a passion to Li River, and have visited there many times. This photo has been published on 1x, and won the 1st place in one of DP Review's photography challenges. Magic Yan, the turquoise water colour is especially nice.
